OUR VISION
Connected communities built on conversations, relationships and compassionate action.

OUR SERVICES

- We build networks with our charter partners through collaborations and community conversations to yield a compassionate impact throughout our city.

- We practice and model mindfulness through education with proven models through Compassionate Integrity Training, Anti-Racism training, and through partnerships that support the development of compassion in children and youth.

- We promote living compassionately in a diverse world through our civic engagement and advocacy efforts by addressing racial and economic justice issues locally.
Join us as we embrace the community and look at how compassion can change our lives. These days, more than ever, we can support compassionate action to work towards creating more equitable and healthy communities for all.

We worked alongside Dekalb NAACP to bring the county’s maker from the Legacy Museum in Montgomery, AL.
